FAVORABLE TO BONDSMEN, Judge Cox Renders a Decision in the

Dudley Case. The trial of the case of the United States against Hood et al., which has teen in progress in the Circuit Court for three days, terminated yesterday and resulted in a verdict for the defend-Hood and others were sureties on the bond of L. E. Edwin Dudley, Superintendent of Indian Affairs for New

The facts developed were that Dud-ley first served in the office named september 29, 1872, to and including April 10, 1873; that on April 11, 1873, having meanwhile been nominated to and confirmed by the Senate for a new term in the same office, he gave a new bond, with the defendants and others as sureties, conditioned that he should carefully discharge the duties of said office, "and faithfully expend all public moreys, and honestly account, without fraud or delay, for the same and

for all public property which shall or may come into his hands. The Government sought to show that Dudley had failed to account for \$4,500 of money that came into his possession while in office, for the re-

covery of which suit was brought.

The Judge held that without ruling upon the sufficiency of the evidence as to the fact of there being a balance in Dudley's hands at the date of the second bond that the sureties would not be responsible. The case will go to the General Term on exceptions.

The New University Club. A meeting of the committee on permanent organization of the new University Club will be held this evening at the residence of W. D. Cabell, 1407 Massachusetts avenue, to prepare a con-stitution and by-laws. An erroneous impression seems to prevail that the committee has fixed the membership limit at 200, and decided upon an admission fee of \$25, and \$25 annual dues. The committee has not yet taken any action on these points.

Uninsured School Furniture, A letter has been received by the District Commissioners from Simon Wolf & Co. calling attention to the fact that while they have jusured the school building on the Bowen road, the Mott, Madison, Garrison and Monroe schools, the school building on the Asylum and Bennings roads, and that on the north side of L street, between Sixth and Seventh streets, the furniture in none of these buildings is insured.

REAL ESTATE MATTERS.

City and Suburban Property in Active It was thought by some that one effect of the World's Fair going to Chi-

cago would be to cause a tumble in real estate transactions in this city, but such an impression turns out to be incorrect. The real estate agents all appear to be in the best of spirits. Several said to THE CRUTIC that the market during the week has been active and good. David L. Gitt & Co. report an active

demand for small houses and some sales of large ones. They have dis-posed of several suburban places in Brookland and Le Droit Park. They have a tract of 300 acres near Tennally-town, held at \$100,000, which they are forming a syndicate on with fair pros-pects of success. They report several leases of residences in the northwestern section of the city from \$600 to \$1,000 per annum. Inquiries for F street business property are frequent and clients offer good figures—say, \$15 per foot. Streets adjacent to F street are also in great favor. The firm contemplate reconstructing a residence into an office building on F, near Twelfth

Major George A. Armes says the market is active. There are numerous inquiries by outside people for suburban property, and for lots inside the Boundary upon which to erect rows of houses. "I have sold since Monday," said the Major, "a number of lots on Thirteenth street northwest for building purposes at \$1.25 per square foot. There is a new syndicate forming to purchase a large amount of suburban property

orthwest." Building within the city limits is progressing as favorably as could be expected, but has been somewhat re-tarded by the recent inclement weather. Among the buildings in course of construction within a few squares of THE CRITIC office are the "Interocean," partly leased by the Government for the Census Bureau, on Ninth street, between E and F; the building of the Northeau Union. of the National Union Fire Insurance Company, F street, between Ninth and Tenth, and the addition to Woodward & Lothtop's building, Tenth street, be-tween F and G. Emmons & King, real estate agents, are about to erect a six-story business building at the south-

west corner of Eleventh and G streets.

A new row of dwelling houses are approaching completion upon the approaching completion upon Boundary side of Le Droit Park.

"Having kept a diary since 1858, and a record of the extreme hot and cold weather in this part of the country. I assert that this is the most singular winter we have had since 1851, and the oldest residents say that they have never experienced such a winter before. never experienced such a winter before. The hottest days since 1850 were in July, 1861, and in the months of May and July, 1865, when the mercury registered 101° in the shade. The high est temperature since 1861 was 96° in the shade, which has been registered on several occasions, but not since 1880. below zero. "The coldest winter since 1850 was the one of 1871-2, when we had thirty-five days that the thermometer stood below zero. The coldest period on record was in January, 1866, when the mercury went below zero at 6 p. m. on the 4th, and continued thus for 112 consecutive hours. The heaviest snow-storm was the blizzard of March 12, 1888, when the snow fell for 52 hours to a depth of about three feet. The next greatest depth of snow was on January 25, 1873—two feet and a half. There has never been a December or January since 1851, but that on one or more days the mercury fell below zero until the present winter."

A Scared Editor,

A seared Editor.

A rugged farmer stalked into the sanctum with a big whip under his arm.

"Be you the editor?" he asked. "I am," was the half apprehensive reply.

"Here's two dollars—send me your paper, for life," he said.

"You see," he went on, "our daughter was sick and liked to die; she drooped and grew weak and pale, had headaches, no appetite, back ached, feet and hands like ice, couldn't sleep, backed with cough, and we thought she had consumption. No medicine helped her till we tried that Dr. Pierce's Favorite Prescription mentioned in your paper, when she began to mend in no time, and is now well and bandsome as a rose. Put me down as a life subscriber."

Now the editor is looking for another scare. The medicine has cured scores afficted as was the farmer's daughter, restoring the female functions to healthy action and removing the obstructions and suppressions which caused her trouble. It is guaranteed to give satisfaction, or price (\$1.00) refunded.
